4800 INDUSTRIAL EPOXY

100% SOLIDS INDUSTRIAL FLOOR COATING

4800 Industrial Epoxy is a 100% solids industrial epoxy floor coating. The 4800 Epoxy series was designed for applications requiring high strength and high gloss while abrasion and chemical-resistant. Due to its solvent-free nature, the ultra-low odor allows it to

be applied without disabling surrounding operations during application and cure. The low viscosity of the system allows it to be applied easily by roller, brush, or squeegee from a thin 2 mils to 125 mils (1/8") for resurfacing applications.

FEATURES & ADVANTAGES:

- 100% solids
- Low Odor
- High-Gloss
- Good Resistance to Most Chemicals
