5018 MATTE FAST-DRYING CLEAR POLYASPARTIC

LOW-SHEEN MATTE FINISH FOR RESIDENTIAL, COMMERCIAL, AND INDUSTRIAL SPACES

5018 Matte Polyaspartic Fast-Drying Clear Topcoat is designed for use over industrial, commercial, and residential concrete floor coatings. It provides a low-sheen matte finish. Featuring a low viscosity, the 5018 Matte Polyaspartic is easy to apply while providing a longer pot life and a faster cure. The cross-linking of

the film in the cure makes it exceptionally tough and durable, making it more abrasion-resistant than most epoxy topcoats. As a result, this matte polyaspartic is extremely user-friendly without sacrificing the performance of the finished product.

THE VERSATILE DIFFERENCE

- Dries quick
- 4 times more abrasion resistant than epoxy
- Low VOC
- High-gloss or matte finish
- High-build
- Great resistance to most chemicals
- Non-yellowing
- Will cure at temperatures just above freezing
