5085 LOW ODOR UHS POLYASPARTIC

LOW ODOR ULTRA-HIGH SOLIDS POLYASPARTIC PROVIDES HIGH-GLOSS FINISH WITH LITTLE TO NO ODOR

The 5085 Low Odor Ultra-High Solids Polyaspartic is a two-component, 85% solids topcoat engineered for fast dry times and easy application. Developed using our proprietary engineering, this near-zero odor formula is a smart choice for indoor residential and commercial spaces where air quality matters. With a 45-minute working time, it lets you achieve a smooth, high-build finish in just one application.

Built for pros who need speed without sacrificing performance, 5085 stands up to heavy traffic, chemicals, and abrasion, while providing a beautiful high-gloss finish. The quick return-to-service time helps you finish jobs faster and keep your schedule moving. Whether you're coating a garage, retail space, or showroom floor, you can count on 5085 to deliver lasting results with less downtime.

THE VERSATILE DIFFERENCE

- No Lingering Odor Formula
- Fast-drying + 45-minute working time
- High Build
- 85% Solids
- High Gloss
- Good Chemical Resistance
- Abrasion and Scratch Resistant
- UV Resistant
- Non-flammable
