

PERFECT FOR COMMERCIAL, INDUSTRIAL AND RESIDENTIAL FLOORS

Versatile has been a product innovation leader in the two-component floor coatings category for nearly three decades. Roll On Rock is just one of many flooring systems we offer, all of which elevate the quality and value of Commercial, Industrial and Residential spaces. When you choose a Versatile flooring system, you're choosing the toughest, most durable epoxy flooring in the business. Our highly specialized and innovative products are superior in quality, selection, long-term maintenance, value and visual appeal. Roll On Rock is American made and comes with an outstanding lifetime adhesion warranty. And with two manufacturing facilities strategically located in Dallas and Los Angeles, we also offer quick delivery and outstanding technical support.

The Best Spaces are Versatile.

MADE IN USA. ©2019 Versatile Building Products

"Thanks to everyone at Versatile for the great service and awesome products. I have been using your products for over six years now. Customer satisfaction has been 100% since I switched over to the Roll on Rock® systems. The scratch resistance is great." - Bruce E / Blue Water Coatings

THE BEST SPACES ARE VERSATILE

ROLL ON ROCK®

TWO-COMPONENT DECORATIVE FLOORING SYSTEMS

TRANSFORM ANY DULL CONCRETE FLOOR INTO A STUNNING, SEAMLESS MASTERPIECE

The Roll on Rock® 2-step flake system has truly revolutionized the Commercial, Industrial and Residential concrete floor coatings industry. Roll on Rock uses a proprietary Epoxy that “wicks” deep into concrete, creating a bond that is up to 3-times stronger than ordinary Epoxy or Polyaspartic systems. Roll On Rock then goes a step further by utilizing a Polyaspartic Topcoat that dries fast and delivers a high gloss, scratch resistant surface. It truly is the best of both technologies.

- **Advanced “Wicking” Technology**
- **Seamless Finish**
- **Impact & Abrasion Resistant**
- **Can Apply In One Day**
- **Hot Tire Resistant**
- **Chemical Resistant**
- **Ultra-Low VOC**
- **Non-Flammable Options**
- **Low-Odor Options**
- **Durable & Easy-to-Clean**
- **Indoor or Outdoor Use**
- **High MVE Resistance**
- **Non-Yellowing**
- **Enhances Any Décor**
- **Lifetime Warranty***

VERSATILE

THE VERSATILE DIFFERENCE

Roll on Rock provides a heavy-duty flooring surface that is not only decorative but will also have a long-lasting bond that is built on the superior “wicking” technology of our proprietary Epoxy. With Roll on Rock, you get a beautiful flooring system that will withstand at least 8 lbs. of MVE pressure, while others fail at 3 lbs. This technology makes it an ideal decorative floor coating that can be used for Industrial, Commercial and Residential spaces.
